Cognition Lab

Lab 2

Part 1

Please read the slides: Lab2_pt1.pptx.
After reading the slides, download stroop_2015.py and trialTypes.xlsx from the folder "Lab 2" under Resources in Sakai. Run the program.

Part 2

Please read the slides: Lab2_pt2.pptx.
Following the instructions, analyze the data. Create a table in word with the mean reaction time and the percent accurate responses from both conditions.

Save and upload to Sakai Assignment as "FirstnameLastname_CogLab_Lab2" – i.e. "JaneDoe_CogLab_Lab2" or "JohnSmith_CogLab_Lab2". In addition, upload the .xlsx file you used for the data analysis.

Part 3

Download and read the slides HowToWriteAProcedure.pptx. Write a Procedure section based on the Stroop task you have run. In writing the procedure, imagine you ran the study on another participant. Please upload it on Sakai under Assignments / Lab 2 as "FirstnameLastname_CogLab_Lab2_Procedure"
